Doubling graduation rates for at-risk youth.*

Our nation is in crisis. Every 26 seconds, a child drops out of school, effectively closing the door on their opportunities for success. High dropout rates impact our entire community and if left unaddressed, will continue to shatter the dreams for an entire generation of youth.

Hillside Work-Scholarship Connection is a nationally recognized youth development program that doubles the graduation rates for middle and high school students most at-risk of dropping out.
